

CONSULTANCY

Our consulting service is the first crucial step in our service lifecycle. It's the cornerstone of our approach, enabling us to delve deep into your business, gaining an intimate understanding of your operations. With this insight, we craft customised tech solutions that precisely match your needs. From the very first consultation to continuous solution management, we remain by your side, ensuring your technology consistently empowers your business.

Our aim is not just to meet your expectations but to exceed them by delivering solutions that address your specific weak points and enhance your operations. We do technical consultation on wide range of requests, some examples include :

- **365 emails**
- **SharePoint**
- **Azure AD**
- **Azure Storage**
- **AWS storage**
- **Onsite/ Cloud servers**
- **Network infrastructure**
- **Network security**
- **Physical Firewalls**
- **cloud Firewalls etc**

We believe that successful technology implementation goes hand in hand with a profound understanding of your organisation. Our commitment to your success remains unwavering, and it's this dedication that sets us apart. We don't just provide solutions; we co-create them with you, ensuring that every piece of technology seamlessly aligns with your objectives. From day one, you can rely on us to be there, offering guidance and support. We're not just experts in technology; we're experts in understanding your business, your goals, and your vision.

Our consulting lays the foundation for tailored tech solutions, aligning technology with your goals. Trust us from day one for unwavering guidance and support. It's not just a service; it defines our essence—an ongoing partnership focused on your enduring success. Count on us as tech experts and strategic allies for your long-term success.

HOW OUR BESPOKE PACKAGES WORK

Once we fully understand your business and requirements, we put together a proposal that we think will work best for your organisation. This includes areas where we feel there is room for improvement and also cost savings where possible. During this process, we will consult you to ensure you are happy and you understand the benefits that the proposed solution will bring.

Together, we can build the best IT environment for your business.
