

## THE FUTURE IS VOIP

To be prepared for the ISDN phaseout, switch to a VoIP service for your business telephony and stay one step ahead with all the benefits to boot.

**Very cost effective**

**Facilitates remote working**

**VoIP is the future**

**Easy to scale**

Never sacrifice productivity, stay connected wherever you and your team are. Flexible contracts and tailored packages to suit your business needs.

## Why VoIP Experts?

We can create a tailored package that includes specific functionality and call bundles to suit your business. There are no hidden costs so you can rest assured that your telephony is in safe hands.

**Dedicated Teams and 24/7 Support**

**Hosted Platform of the Year 2018**

**Detailed usage reports and statistics**

Full featured with customisable packages. Scalable solutions that seamlessly grow as you do. Robust and resilient infrastructure so you can always stay connected with no interruptions.

**Low call costs. Flexible working. No long term contracts.**

**Crystal Clear Voice**

**Free Internal Calls**

**Never Miss A Call**

A complete communications solution that works for your business. Our cloud-based phone system provides your business with the advanced features of a PBX but without the associated costs and maintenance.

We facilitate remote working through the use of soft-phones, mobile clients, video calling and a whole host of other features that enable greater productivity.

## Mobile Clients and Video Calling

**Feature Rich**

**Connect from Anywhere**

**Simple Management**

Take your office extension with you using our new mobile application. Our mobile application is simple to use and it is available from the Application Store or Google Play.
